#### DINING ROOM

It is definitely worth experiencing a formal banquet in the superb surroundings of the dining area. Fiber optic lighting, walls of glass and art deco ambience ensure that this dining room is the most sophisticated afloat.

The area is split into three sections. The first, the main dining area, seats a total of 30 guests. The second is a cosy secluded area allowing six guests to dine casually. Finally there is a well stocked bar with an experienced barman who will mix you any drink you desire from the driest of Martinis to the most exotic cocktail.

#### BUSINESS CENTRE

The Business Center offers high speed computers, fax machine and video conferencing facilities giving you the ability to stay in touch with your business interests wherever you might wish to cruise.
